

Inira is the AI-powered HR assistant that connects to any HR system, automates tasks, and provides instant insight — securely, accurately, saving you the manual work.

Book a demo at inira.ai

or contact us at sales@connectmyapps.com

Eliminate manual admin

Save time and reduce errors in reporting, calculations, and data compilation

Work strategically

Let HR professionals focus on people and performance, not paperwork

Real insight across all HR systems

Even when data lives in different apps

Secure by design

Built on ConnectMyApps' GDPR-compliant iPaaS infrastructure (Canvas), with EU-based storage

- Ask simple or more complex questions about your HR data
- Perform calculations
- Create and export charts, tables, reports
- Upload and analyse internal documents securely (e.g CVs, confidential reports, etc), and use iniraHR to summarise and provide insight instantly
- Set up reminders and automate common HR tasks
- Write emails, summaries, and internal messages using built-in AI
- No direct LLM access to data – AI queries database via secure SQL, ensuring privacy

What was the sick leave percentage in Accounting in Q1?

How many new employees did we onboard last quarter?

What is the salary progression for John Smith since he started?

What was our staff turnover last year?
